

Dear Parents,

Homework is a great way to reinforce skills, make connections, and keep you updated about what we are learning in class. Homework will be sent home every Tuesday and Thursday. It will be an activity that will reinforce concepts and skills learned in the classroom. In addition, we would also like to emphasize the importance of reading with and to your child on a daily basis.

Homework should be returned the following day. There will be a special monthly project to be completed with parent support. The students will receive additional time to complete this project. Along with homework, it is helpful that your child also practice other skills such as: counting to 100, writing numerals, writing upper and lower case letters, saying letter sounds, and counting objects. Daily review of introduced Word Wall words will also be extremely beneficial for your child.

We look forward to working together and providing your child with a meaningful Kindergarten experience.

Best Regards,

The Kindergarten Teachers
